PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience across full-stack web development, AI-powered workflow automation, and SEO/digital marketing. Skilled in building web applications, automating business processes with AI, and using data-driven insights to improve search visibility and performance. Complements technical delivery with a background in graphic design, with a track record of shipping projects from academic research to a hackathon-winning startup product.

TECHNICAL SKILLS

- Web Development: Next.js, React, JavaScript, HTML, CSS, Python, C#, Flutter, GitHub
- AI & Automation: n8n, AI Agents, OpenAI API, Gemini API, Antigravity
- Cloud & Deployment: Firebase, Vercel
- Design: Canva, Figma
- Digital Marketing & SEO: Google Analytics 4, Google Search Console, SEO Optimization

PROFESSIONAL EXPERIENCE

AI Automation & Workflow Intern (OJT)

January 2026 - April 2026

Callbox Inc. - Iloilo

- Designed and implemented automated workflows using n8n to streamline internal operations.
- Troubleshoot and optimized workflow automations, identifying integration errors and improving reliability and system performance.
- Monitored website performance and search visibility using Google Analytics 4 and Google Search Console, analyzing data to support SEO and digital optimization efforts.
- Conducted SEO analysis and implemented improvements to increase search visibility and web traffic.
- Collaborated with team members to test, validate, and improve AI-driven automated processes, ensuring accuracy and efficiency.
- Explored and experimented with vibe coding and utilized Antigravity tools to build applications.
- Assisted clients with website issues and facilitated automated client outreach via Vapi AI, auditing call outcomes and documenting interaction details to maintain accurate lead and campaign records.

Data Annotator

June 2026

Remotasks

- Annotated and segmented video/sensor datasets capturing robotic task execution to train and fine-tune robotics AI and computer vision models.

CCS Tech Support

May 2025

MIRU Systems Co., Ltd.

- Provided technical support for the Consolidation and Canvassing System (CCS) during the 2025 National and Local Elections.
- Assisted CCS operators in troubleshooting system issues and resolving technical errors to ensure smooth real-time election reporting.

PROJECTS

MapaKaon - Startup Project

- Contributed as Lead Researcher on a Flutter-based progressive web app that digitizes restaurant services and enhances food discovery in Iloilo City.
- Used Firebase Firestore for real-time data and OpenStreetMap for navigation, enabling users to locate nearby restaurants, browse menus, and receive route suggestions.

- Built vendor registration and profile management features; deployed with Firebase Hosting for fast, mobile-friendly access.
- Winner, Best Food Systems Innovation - Central Launch 2.0: Western Visayas Startup Hackathon (November 2025).

CallBlog - AI Content Automation Platform

- Built an AI-powered content generation and publishing platform that turns simple ideas and target audience inputs into fully optimized blog posts.
- Integrated a modern frontend with n8n automation to research, structure, and directly publish content to WordPress.
- Focused on SEO and AEO performance using structured headers and topical clusters to maximize organic search visibility.

Deception Detector - Undergraduate Thesis

- NLP-driven fact-checking system that verifies claims from social media and online platforms against credible Philippine news sources.
- Generates a Real/Fake verdict with a confidence score and concise justification to help users identify misinformation.
- Served as documenter on the project team.

ShopSmart - Case Study

- Comprehensive e-commerce platform enabling product browsing, shopping cart management, and secure checkout.
- Implemented full-stack functionality including database design, user authentication, and responsive UI.

EDUCATION

Bachelor of Science in Computer Science
Central Philippine University

2022 - 2026

AWARDS

- Best Food Systems Innovation - Central Launch 2.0: Western Visayas Startup Hackathon (November 2025), for MapaKaon

SOFT SKILLS

Open-minded, Critical Thinking, Active Listener, Teamwork, Willingness to Learn
